

Safety Data Sheet

Chemical Substances and Company Information

Product name (Glass type) S-FPM4

Name of manufacturer Ohara Incorporated

Address 15-30 Oyama, 1-Chome, Chuo-ku, Sagami-hara-shi, Kanagawa 252-5286, Japan

Issuing Department Environmental Management Section , Machinery & Purchasing Department TEL:+81-42-772-2101 FAX:+81-42-774-1071

Executing Department Material Production Control Section , Material Production Center TEL:+81-42-772-5115 FAX:+81-42-774-2314

Date of creation Aug 19, 2019

Date of revision

Hazards Identification

Optical glasses are physically and chemically stable and are not hazardous. However, the following danger hazardousness is concerned during processing of optical glasses.

Hazards : Ingestion of grinding and polishing liquids and inhalation of dust generated during dry processing may cause chronic or cumulative health impairment including cancer.

Environmental effects : Pay attention to the concentrations of grinding and polishing liquids in wastewater as they may damage the ecosystem.

GHS classification(1 - 115)		Al ₂ O ₃	AlF ₃	BaF ₂	BaO	
Physical hazards	Explosives	Not applicable	Not applicable	Not applicable	Not applicable	
	Flammable / Flammable gases	Not applicable	Not applicable	Not applicable	Not applicable	
	Flammable / Flammable aerosols	Not applicable	Not applicable	Not applicable	Not applicable	
	Combustion support / Oxidizing gases	Not applicable	Not applicable	Not applicable	Not applicable	
	Gases under pressure	Not applicable	Not applicable	Not applicable	Not applicable

Composition / Information on Ingredients

Substance / Mixture: Mixture

Ingredients and contents

Chemical name	Chemical formula	Industrial Safety and Health Law		Chemical Management Promotion Law (Responding to revised government ordinance of Oct 1, 2009)							Poisonous and Deleterious Substances Control Act
		Hazardous substances of which notification of names is required	Content (Weight %)	Names of designated chemical substances	Content (Weight %) Note 1	Appended table number	Item number	Class 1 designated chemical substance	Specified Class 1 designated chemical substance	Class 2 designated chemical substance	
Phosphorus pentoxide	P ₂ O ₅	Phosphorus pentoxide	20 - 30	—	—	—	—	—	—	—	—
Strontium fluoride	SrF ₂	Fluorine and its water-soluble inorganic compounds	20 - 30	—	—	—	—	—	—	—	—
Barium oxide	BaO	Barium and its water-soluble compounds	10 - 20	—	—	—	—	—	—	—	○
Calcium fluoride	CaF ₂	Fluorine and its water-soluble inorganic compounds	10 - 20	—	—	—	—	—	—	—	—
Barium fluoride	BaF ₂	Fluorine and its water-soluble inorganic compounds	2 - 10	—	—	—	—	—	—	—	○
Aluminum fluoride	AlF ₃	Fluorine and its water-soluble inorganic compounds	2 - 10	—	—	—	—	—	—	—	—
Aluminium oxide	Al ₂ O ₃	Aluminium oxide	2 - 10	—	—	—	—	—	—	—	—
Magnesium fluoride	MgF ₂	Fluorine and its water-soluble inorganic compounds	2 - 10	—	—	—	—	—	—	—	—

Note 1: Weight percentages of relevant substances are listed in accordance with the Chemical Management Promotion Law(Japan)

First Aid Measures

- Eye contact : If the grinding or polishing liquids come into contact with eyes, immediately rinse the eyes with clean water and obtain a medical diagnosis, if necessary. In the case of contact with dust from dry processing, be careful to avoid damaging the eyeballs and obtain a medical diagnosis.
- Mouth contact : If grinding and polishing liquids and dust enter the mouth, rinse with plenty of water. If ingestion occurs, give the patient plenty of water and induce vomiting, then obtain a medical diagnosis, if necessary.

Fire-Fighting Measures

Since optical glasses are nonflammable, any extinguishing media may be used.
When glass becomes the high temperature at a disaster, gas including fluorine may be generated. Therefore, move applicable glass to the safe place at the time of the fire immediately. When it was in a situation that gas including fluorine is generated,
I wear the bird cage which is not located leeward and prevent you from inhaling gas containing fluorine. When I inhale it, I receive the diagnosis of the doctor.

Spillage Countermeasures

- Grinding and polishing liquids : Stop the flow with sandbags or the like to prevent the spill from contaminating soil or being absorbed into wastewater systems such as sewers. Collect as much of the released liquid as possible into an empty container.
- Dust : Prevent dust from contaminating soil or being absorbed into wastewater systems such as sewers, and collect as much of the released dust as possible into an empty container. Be sure to remain upwind and wear a dust mask when dealing with dust spills.

Handling and Storage

Since optical glasses are physically and chemically stable, no precautions are required in handling and storage.
During grinding, polishing, and dry processing

- * When handling, be careful to prevent grinding and polishing liquids, grinding and polishing waste, and dust from dry processing from escaping and contaminating the environment; and
- * Gargle and wash hands thoroughly after work.

Exposure Control / Personal Protection

Although there is no potential hazard in exposure to optical glass due to its physical and chemical stability, exposure to the mist scattered during wet processing and the scattered dust created during dry processing may result in injury.

During wet processing : Prevent mist from scattering by providing the processing machine with a protective cover or the like.

During dry processing : Prevent dust from scattering by installing a local exhaust system or the like. Wear a dust mask. Wear eye protection, if necessary.

Control concentrations of chemical substances

Chemical substance name	Dust	Hydrogen fluoride
Control concentration	E=3.0 mg/m ³	0.5 ppm

Physical and Chemical Properties

Physical state	:	Solid
Color	:	Pale yellow, transparent or colorless and transparent
Odor	:	Odorless
pH	:	Not applicable
Temperature of changing physical state (Yield point)	:	520°C
Specific gravity	:	3.76
Solubility	:	Low

Stability and Reactivity

Stability	:	Stable
Reactivity	:	Normally unobservable
Decomposition products	:	Normally unpredictable

Toxicological Information

Since optical glasses are physically and chemically stable, they do not have acute toxicity or local effects.

Grinding and polishing liquids and grinding and polishing waste and dust have:

Acute toxicity	:	No information
Carcinogenicity	:	No information
Chronic toxicity	:	Cumulative chronic toxicity through inhalation and skin contact

Ecological Information

Since optical glasses are physically and chemically stable, they have no ecological effects.

Gas generated during melting does not have hazardousness to the ozone layer.

When concentrations of grinding and polishing liquids surpass the standard value of the Water Pollution Control Law(Japan) shown below, they have cumulative chronic toxicity.

Restricted substance	Fluorine and its compounds	Phosphorus
Effluent standards or permissible concentration	8 mg/L	16 mg/L

Disposal Considerations

Commission disposal to approved and licensed waste disposers in accordance with the relevant laws and regulations concerning the disposal and handing of wastes.

Transport Information

None

Regulatory Information(Japan)

Industrial Safety and Health Law, enforcement ordinance of the same, bylaw of the same

Pneumoconiosis Law, enforcement regulations of the same

Ordinance on the Prevention of Dust Hazard

Ordinance on the Prevention of Lead Poisoning

Ordinance on the Prevention of Hazards due to Specified Chemical Substances

Working Environment Measurement Law, enforcement ordinance of the same, enforcement bylaw of the same, standard of the same, standards for working environment evaluation

Water Pollution Control Law, enforcement ordinance of the same, enforcement bylaw of the same, prefecture and ministry ordinances, notifications, and the like stipulating effluent standards

Chemical Management Promotion Law

Soil Contamination Countermeasures Act, enforcement ordinance of the same, enforcement regulations of the same.

Poisonous and Deleterious Substances Control Act, enforcement ordinance of the same, enforcement regulations of the same.

Waste Disposal and Public Cleansing Law, enforcement ordinance of the same, enforcement bylaw of the same

●Please confirm applicability of laws and regulations depending upon the site scale, installed capacity, and the like.

●Make sure you are aware of and adhere to all applicable local regulations.

Other Information

Contact us if you wish to melt down glass for recycling or other purposes.
